Brand New Book ***** Print on Demand *****.When Sam hears that the storms along Scotland s east coast, there s only one thing he wants to do - catch the surf. Missing out is not an option. Taking his board out to sea is full of risk. The storms are even heavier than Sam expects and he doesn t escape unscathed. Nor do the local towns and beaches which are left battered, damaged and covered in the detritus of the sea, including some rather strange looking rocks the likes of which nobody has ever seen before. In the storm s aftermath, however, there are a series of unusual events. First of all, there are the missing dogs, followed closely by the disappearance of some young children who were last seen playing on the sand. Not to mention the unusual noises that have been keeping people awake at night. Talk on the streets of Dunbar is that it s Black Agnes returned to take revenge. Others fear environmental catastrophe. Still more cite ancient visions of the end of the world. The Rocks Below is a tale suitable for adults, young adults and older children. It contains a subtle yet powerful message relating to environmental issues. Fusing elements of crime fiction, science fiction and adventure stories, this is a book that entertains and stimulates thought in one exciting read.
