ASSESSING STUDENTS IN THE MARGINS: CHALLENGES, STRATEGIES AND TECHNIQUES

[DOWNLOAD PDF](#)

Information Age Publishing, United States, 2011. Paperback. Book Condition: New. 234 x 155 mm. Language: English . Brand New Book ***** Print on Demand *****.The importance of student assessment, particularly for summative purposes, has increased greatly over the past thirty years. At the same time, emphasis on including all students in assessment programs has also increased. Assessment programs, whether they are large-scale, district-based, or teacher developed, have traditionally attempted to assess students using a single instrument administered to students under the same conditions. Educators and test developers, however, are increasingly acknowledging that this practice does not result in valid information, inferences, and decisions for all students. This problem is particularly true for students in the margins, whose characteristics and needs differ from what the public thinks of as the general population of students. Increasingly, educators, educational leaders, and test developers are seeking strategies, techniques, policies, and guidelines for assessing students for whom standard assessment instruments do not function well. Whether used for high-stakes decisions or classroom-based formative decisions, the most critical element of any educational assessment is validity. Developing and administering assessment instruments that provide valid measures and allow for valid inferences and decisions for all groups of students presents a major challenge for today's assessment programs. Over the past few decades, several national policies have sparked research and development efforts that aim to increase test validity for students in the margins. This book explores recent developments and efforts in three important areas. The first section focuses on strategies for improving test validity through the provision of test accommodations. The second section focuses on alternate and modified assessments. Federal policies now allow testing programs to develop and administer alternate assessments for students who have not been exposed to grade-level content, and thus are not expected to demonstrate proficiency on...
