One who wants to get joy of book reading especially in very less time can go for it. About the Book RUDOLF VIRCHOW Rudolf Virchow, the son of a small farmer and shopkeeper, was born at Schivelbein, in Pomerania, on October 13, 1821. He graduated in medicine at Berlin, and was appointed lecturer at the University, but his political enthusiasm brought him into disfavour. In 1849 he was removed to Wurzburg, where he was made professor of pathology, but in 1856 he returned to Berlin as Professor and Director of the Pathological Institute, and there acquired world-wide fame. His celebrated work, Cellular Pathology as based on Histology, published in 1856, marks a distinct epoch in the science. Virchow established what Lord Lister describes as the true and fertile doctrine that every morbid structure consists of cells which have been derived from pre-existing cells as a progeny. Virchow was not only distinguished as a pathologist, he also gained considerable fame as an archologist and anthropologist. During the wars of 1866 and 1870/71, he equipped and drilled hospital corps and ambulance squads, and superintended hospital trains and the Berlin military hospital. War over, he directed his attention to sanitation and the sewage problems of Berlin. Virchow was a voluminous author on a variety of subjects, perhaps his most well-known works being Famine Fever and Freedom of Science. He died on September 5, 1902.
